Limitations and Alternatives

Despite our ongoing efforts to ensure accessibility, certain limitations may persist. Below are specific examples, along with justification for their current unresolved status and suggested alternatives:

Zoom Functionality on Android Devices:

o Justification for Unresolved Issue: The respective operating system may not support certain content zoom capabilities. Alternatively, the necessary fix requires fundamental changes to the website's design, which are not scheduled for implementation in the near future. Nonetheless, we are continuously striving to identify a viable solution that ensures accessibility for all users.

o Suggested Alternative: It is recommended to access the application via the **Google Chrome browser** to ensure the best possible user experience and partial mitigation of the issue.

Navigation using the keyboard in certain element

o Justification for Unresolved Issue: The respective operating system may not support certain content zoom capabilities. The necessary fix requires changes to the website's coding which are scheduled for the near future. We are constantly working on improving any remaining issues

Color contrast issues
